

WEYLER WILL BE RECALLED

Spanish Cabinet Decides Upon an Immediate Change in Cuba.

GENERAL BLANCO FOR GOVERNOR GENERAL

Queen Regent Will Today Sign the Decree Appointing the New Official—Governor General Between Weyler and Sagasta.

MADRID, Oct. 8.—(Midnight).—The cabinet has decided upon the immediate recall of General Weyler from Cuba.

A decree will be issued appointing Captain General Blanco y Arenas, marquis of Peñaflorida, governor general of the island. The queen regent will sign the decree tomorrow.

According to El Herald, 20,000 reinforcements will accompany General Blanco to Cuba. General Blanco will be accompanied by General Arderie as vice commander of Cuba, by General Gonzalez-Palinas and Generals Pando, Bernal and Canelas.

In the course of the cable message sent by Weyler to Premier Sagasta placing his post in Cuba at the disposal of the government, he said:

"If the functions with which they had entrusted me had been merely those of governor general of Cuba I should have hastened to resign. But the two-fold character of my mission and my duty as commander in chief in the face of the enemy, prevent my tendering a resignation. Nevertheless, although I can rely upon the absolute unconditional support of the autonomous and constitutional parties without public opposition, this would be insufficient without the confidence of the government, now more necessary to me since the censure by the members and the journals of the liberal party and by public opinion in the United States, which latter is largely influenced by the former. This confidence would be necessary to enable me to put an end to the war which has already been virtually concluded from our lines at Juncos to Cape Antonio."

Senior Sagasta replied: "I thank you for your explanation and value your frankness. I wish to assure you that the government recognizes your services and values them as they deserve. But it thinks a change of policy, in order to succeed, requires that the authorities should be at one with the military. This has nothing to do with the confidence felt in you by the government, for the liberals have always said that the responsibility for the given policy does not fall upon those who carry it out, but upon the government inspiring it. I shall communicate your communication to the government shortly."

WEYLER WILL NOT RESIST. HAVANA, Oct. 8.—General Weyler gave today an emphatic and absolute denial to the reports that he would resist removal from the command in Cuba and in certain contingencies might espouse the Carlist cause. He said, according to the official account:

"My principles and my military record are firm guarantees that I will never oppose the constituted government whatever it may be. I never have put obstacles in the way of the government and I never shall. I have always obeyed orders and I always shall. So far as popular demonstrations go I accept them only as expressions of approval of my military policy and as tokens of personal sympathy."

The merchants of the island, according to the official account, continue to send cable messages to Senior Sagasta expressing their confidence in the United States. Madam Ana Milan de Benon, who has been in charge of the hall at the Casa de Recogidas, where Senora Cossio was confined, is said to have been arrested and confined pending the result of the inquiry being made into the escape of Senora Cossio.

JUSTIFY ACTION OF SALISBURY. London Press Comment on Hering Sea Conference. LONDON, Oct. 8.—The St. James Gazette this afternoon, referring to the formal announcement of Great Britain's declination to take part in a Bering sea conference to which Russia and Japan might be parties, says: "There will be a feeling of relief that Great Britain, in behalf of Canada, has finally declined to walk into the trap which was being arranged at Washington. America has never paid the damages for the illegal seizure of Canada's fisheries and has exhausted every diplomatic artifice to evade the award, finally demanding a fresh conference. The marquis of Salisbury consistently, throughout the conference, proposed that Russia and Japan should have seats at the conference, with the obvious intention of outwitting England and upsetting, by a side wind, the Paris award."

The Globe, commenting on the same subject this afternoon, says: "As a more matter of business, it is to be feared that a firm check was put upon the policy of the United States in dealing with this case. There was no cause to adopt the theory that the marquis of Salisbury almost regretfully refused to participate. In the interests of Canada, it is well to let the United States understand that no settlement of the question will be made by Great Britain which sacrifices the lot of the just and equitable rights of the loyal Dominion of Canada."

GOING TO SEEK BURIED TREASURE. Thirty Million Dollars' Worth Said to Have Been Located. LONDON, Oct. 8.—The British war ship Imperieuse, which recently sailed for Guatemala, carried as a guest Rear Admiral Palliser Ernest Harris, a real estate man of this city. It is asserted that he went south to secure part of the treasure which Charles Hartford says he has located on Cocos island. Hartford came here from Cocos island a couple of months ago on the schooner Aurora, on which a party of sealers and some of the islanders were for treasure. The sealers could not find it, but Hartford says he located \$30,000,000 in gold, silver and jewels. Hartford is said to have interested Harris and the officers of the Imperieuse in his story, and it is even thought that he himself sailed as a blue jacket on the vessel.

Proclamation to the Afridis. SIMLA, Oct. 8.—General Sir William Lockhart, in command of the punitive expedition against the rebellious border tribes, has issued a proclamation to the Tribes Afridis and Orakzais saying that in consequence of their breaking the treaty of 1881 the government is sending a force to march through their country. The final peace terms of the government will be announced to the tribes on the arrival of this force at their capital. Immediate submission to the British authorities is required in order to avoid unnecessary damage, otherwise punishment will follow any opposition to the British advance.

Awarded Highest Honors—World's Fair, Gold Medal, Midwinter Fair. DR. SCOTT'S EMERALD CREAM POWDER. A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD.

MORE OF HILL'S FAMILY TROUBLES

His Wife Interrupts One of His Amours.

A case of domestic disharmony in the family of Joseph Hill, which has previously formed itself upon public attention, was brought to light again last night. Last night Mrs. Hill followed her husband to 1707 Madison street, at which number Hill's more lately favored choice in the person of Mattie Baker, is a servant. She heard him talking to the girl within and fired through the window in the hope of reaching one of them. The aim was so truly guessed that though the curtain was drawn the bullet passed between Hill and the Baker woman, scaring her roughly across the hand upon Miss Baker, in speaking of the shooting, says: "Just at supper time Hill called and asked to see me for a few moments. I was busy at that time and I did not go, but he called again and I admitted him. "We were sitting near the window talking. Suddenly there was a noise at the window as if some one was striking it and immediately the shot came. Hill then arose and went out the back door."

W. T. Hale of 382 North Seventeenth street is the man who followed the shot. He says he saw Hill meet a woman at the front of the house and attempt to drag her away with him. He saw Hill then thrust the woman rudely down and that she fell upon the sidewalk, where he found her in a hysterical and fainting condition. He followed Hill to Clark street, where the latter ran across the street and she fell upon the sidewalk. Hill is an employe of Swift and Company in South Omaha and resides on Sherman avenue.

Hill was removed to the police station prostrated and delirious with excitement and terror. When she had somewhat recovered from her excitement she said that Hill's unfaithfulness to her was the cause of the shot. She says she saw Hill meet a woman at the front of the house and attempt to drag her away with him. He saw Hill then thrust the woman rudely down and that she fell upon the sidewalk, where he found her in a hysterical and fainting condition. He followed Hill to Clark street, where the latter ran across the street and she fell upon the sidewalk. Hill is an employe of Swift and Company in South Omaha and resides on Sherman avenue.

South Omaha News.

Yesterday afternoon City Engineer Beal ordered Frank Pivonka to stop work on the building he is erecting across the alley from the South Omaha National bank. Pivonka took out a permit for a brick structure and announced at that time that he would put up a brick building. When the city engineer visited the place yesterday afternoon he found that the building was of frame with veneer of brick. The building ordinance calls for a twelve-inch brick in the case of brick buildings. Pivonka was putting in only a four-inch brick wall, and this Mr. Beal considered dangerous. Pivonka wanted to put up a genuine iron building, but could not do so on account of the building ordinance. An attempt was made by certain members of the council and the mayor to have a permit for a brick building issued, but it would not interfere with Pivonka's plans. Some of the councilmen opposed it and it was impossible to obtain a quorum without special notice called for the purpose. Pivonka tired of the delay and procured a permit for a brick structure. Just where the matter will end is a question.

Diphtheria is Feared. Physicians report quite a number of cases of diphtheria and several deaths have occurred within the last few weeks from this disease. Sore throat is prevalent and parents of school children are becoming alarmed. In the First ward parents are keeping their young children out of school for fear of contagion. At the Lincoln school, number of cases of diphtheria have developed and any number of the pupils have been complaining of sore throat. There is some complaint that the school board authorities are not looking after the matter as they should, in that they permit children who are threatened with diphtheria to attend school. In the past there has been some trouble in having contagious disease signs tacked on houses where it was necessary to warn persons away. The signs are being properly placed now as the authorities are evidently realizing the gravity of the situation.

Albert Noel left last night for Cheyenne on business. Miss Jennie Corval of Alliance is in the city visiting friends. Captain William Kelly and wife have returned from a trip to Iowa. Ed Hartley returned from Kansas, where he spent his vacation. J. H. Butler, Crescent, Ia., was a business visitor in the city yesterday. Joe Murphy, Armour's cattle buyer, has returned from a trip to Chicago. Everyone must register this fall. The first day of registration is on October 14. Quite a delegation from this city went out to the races yesterday afternoon. Charles Weston of Hay Springs was here yesterday, the guest of L. J. Simmons. C. C. Clifton has returned from Wisner, where he went to look after business matters. A permanent sidewalk is being laid in front of the Singer block, Twenty-fourth and N streets.

The funeral of Josephine Foley, Albright, was held yesterday. Death was caused by diphtheria. A motor train ran over and killed a fine greyhound on Twenty-fourth street yesterday afternoon. A permit has been issued to P. H. Kiger for a frame residence at Seventeenth and M streets. It was stated yesterday that over \$900,000 brick will be used in the eight buildings of the Armour estate. Cullington & Wilcox are building an office and retail store on Twenty-eighth street, near the B. & M. freight depot. Harry L. Dennis has taken out a permit for the erection of a \$120,000 residence on Twenty-ninth and M streets. The Good Templars have instructed Rev. J. O. Staples, Burton Rice and E. Rowland Smith, delegates to the grand lodge, which meets at Lincoln October 13, to see all house-keepers means to secure the '98 session for South Omaha.

The young son of Councilman and Mrs. W. B. Vansant, Twenty-fourth and P streets, is seriously ill with diphtheria. For several days the child suffered with sore throat, which quickly turned into diphtheria, and it is feared that the result may be serious. The Missouri avenue sewer is completed to Seventeenth street, leaving the city engineer set the stakes from Seventeenth to Twentieth streets. A junction is made in this sewer every twenty-two feet. The work will be completed before cold weather sets in.

HIS JURISDICTION QUESTIONED. Judge Scott's Position Assailed by Herdman. The court room in The Bee building, over which Judge Scott presides, was crowded with attorneys and interested spectators yesterday afternoon to hear the trial of R. E. L. Herdman on the charge of contempt of court in voting against the resolution which was passed October 1 by the Board of Fire and Police Commissioners relative to the dismissal of W. W. Cox from the police force. This is the resolution which was passed in pursuance of the order of the court, and by which the resolution passed at the previous meeting, by which a number of officers were dismissed from the force, was rescinded so far as it applied to Cox. The case is now on for the first time, and the court which was then adjourned to Tuesday at 2 o'clock, when Mr. Herdman's attorneys will be given an opportunity to present some authorities in support of their position.

Mr. Herdman was represented by Attorneys Reed and Gurley and the former submitted the answer to the charges. Herdman practically stood on his answer and contained no apology for his course. On the other hand, it plainly stated that the court had no jurisdiction in the matter and that the restraining order by which the Board of Fire and Police Commissioners was enjoined from discharging Cox was invalid in itself. The answer denied the facts relative to the meeting of the board with the city council and other municipal departments to confer in regard to the deficit in the city finance and cited the authority report of the council finance committee, in which the necessity of curtailing expenses in the police and other departments was emphasized. It was stated that the restraining order in the force of which the board was dismissed from office, was not intended to prevent the board from discharging Cox upon charges already filed, or any "false or frivolous" charges, but did not pretend to prevent the board from making a resolution in the force of which reason as the lack of funds. It also alleged that Commissioner Herdman had voted against the resolution "in the due and legal exercise of his official discretion, in which he was not subject to the court," that the court had no authority to issue the restraining order anyway, and that the order itself was invalid on account of the fact that its terms were "vague and uncertain."

The court commented at some length on the questions raised in the answer and his ruling indicated that they were not likely to find favor. He read section 169 of the charter, which states that no officer should be employed or discharged for political reasons, and also that no member of the police or fire department should be discharged except upon charges filed and a subsequent conviction on the way to Chicago. John W. Tromper, sheriff of Lancaster county, is stopping at the Barker. T. J. Foley, superintendent of the Omaha & Republican Valley railroad, is visiting in the city. Dr. J. E. Mann, accompanied by Mrs. Mann, will leave for Louisville, Ky., October 25, where the doctor has accepted the chair of eye, ear, nose and throat in the University of Louisville. At the Millard: Oliver Ames, Boston; J. S. French, Cincinnati; W. H. Murphy, Grand Rapids; J. W. Taylor, Lincoln; A. Humphrey, Lincoln; S. Carr, Boston; Charles E. Hubbard, Boston; E. G.
